Are We There Yet?

Exodus 17:8-16

The Book of Exodus is the story of how God raised up Moses, rescued His people from slavery in Egypt, provided for them in the wilderness, and eventually delivered them to the Promised Land. In Exodus 17, the Israelites face a new kind of problem-their first battle-and they quickly learn their need for God! We learn from this episode that: Victory comes from the Lord!

1. The Attack

2. Human Responsibility & Divine Power

3. Experiencing Victory

Where have you experienced God's victory in the past?

Where do you feel under attack today?

What is your responsibility in the fight?

What would victory look like in this battle?

How does Christ provide our ultimate victory?

What does that mean for you personally?
